ANNUAL MAINTENANCE SERVICES (AMC)

AT SHARMA INDUSTRIES, WE BELIEVE THAT INSTALLING A SECURITY SYSTEM IS ONLY THE BEGINNING OF ENSURING COMPLETE PROTECTION. TO MAINTAIN THE RELIABILITY, EFFICIENCY, AND LONGEVITY OF YOUR SECURITY INFRASTRUCTURE, WE OFFER COMPREHENSIVE ANNUAL MAINTENANCE CONTRACT (AMC) SERVICES TAILORED FOR RESIDENTIAL, COMMERCIAL, INDUSTRIAL, EDUCATIONAL, AND INSTITUTIONAL CLIENTS.

Our AMC program is designed to keep your surveillance and automation systems operating at peak performance through regular preventive maintenance, timely inspections, software updates, and rapid technical support. By identifying potential issues before they become major problems, we help reduce unexpected breakdowns, minimize downtime, and protect your investment.

Our experienced and certified technicians perform scheduled maintenance visits to thoroughly inspect every component of your security system. This includes cleaning CCTV camera lenses, checking image quality, verifying recording functionality, inspecting DVR/NVR health, testing storage devices, ensuring network connectivity, examining power supplies and backup systems, updating firmware where applicable, and confirming that all devices are functioning efficiently.

Beyond routine maintenance, our AMC customers receive priority technical assistance whenever a fault occurs. Our support team responds quickly to diagnose and resolve issues, ensuring your security systems remain operational with minimal interruption. If any component requires replacement or upgrading, we provide professional recommendations along with transparent cost estimates.

AMC Coverage Includes

- | | |
|---|--|
| 1. Preventive maintenance with scheduled service visits | 8. Maintenance of Video Door Phones |
| 2. Complete inspection of CCTV surveillance systems | Smart Door Lock inspection and functionality testing |
| 3. Camera lens cleaning and image quality optimization | 9. Access Control System servicing and calibration |
| 4. DVR/NVR health check and recording verification | Boom Barrier and Gate Automation maintenance |
| 5. Hard disk testing and storage performance monitoring | System performance optimization |
| 6. Firmware and software updates (where applicable) | 10. Fault diagnosis and troubleshooting |
| 7. Network, cable, and power supply inspection | Priority breakdown support and faster response time |
| Testing of remote mobile viewing and internet | 11. Technical consultation for system upgrades and expansion |
| | 12. Detailed service reports after every maintenance visit |

Benefits of Our AMC

- Reduced risk of unexpected system failures
- Extended equipment life through preventive maintenance
- Consistent surveillance and uninterrupted security
- Faster issue resolution with priority support
- Improved system performance and recording reliability
- Lower long-term maintenance and repair costs
- Professional support from experienced engineers
- Peace of mind with year-round technical assistance

Whether you manage a office, retail showroom, warehouse, factory, educational institution, hospital, hotel, residential society, or corporate campus, our AMC solutions ensure your security and automation systems remain reliable, efficient, and ready to perform when you need them most.

With Sharma Industries' Annual Maintenance Contract, you don't just purchase maintenance—you gain a dedicated technical partner committed to protecting your security infrastructure every day of the year.
